CORRECTS SPEED DISPLAY ERRORS WHEN EXCHANGING SPROCKET TEETH OR TIRE SIZE!

Corrects speed display errors when exchanging the number of teeth on the front and rear sprockets or changing the tire size. Just disconnect the connector and insert the new one. No wiring harness modification is required.

**FOR '08 ~ / '18 ~ SEROW 250
SPEED PULSE CONVERT UNIT-TYPE2!
NEWLY RELEASED!**

**VEHICLE SPECIFIC DESIGN!
NO WIRING MODIFICATIONS
REQUIRED!
COUPLER-ON!**

SPEED PULSE CONVERT UNIT-TYPE2 ('08~)

APPLICAION SEROW 250 (DG17J) 3C5/1YB/B1H ※ONLY COMPATIBLE WITH DOMESTIC MODELS.

NOTE

- COUPLER-ON ● SIZE : 71×39×14(mm) ● VEHICLE SPECIFIC SUB-HARNES
- URETHANE SPONGE ● CABLE TIES INCL.

- ※Non-genuine meter might not activate correctly.
- ※This kit is not completely waterproof. Place it where it does not get wet or rain.
- ※7-segment displays may have poor visibility in bright environments. If visibility is poor, try covering the display with your hand to create a shadow.
- ※Due to the SEROW 250's meter function, it may momentarily indicate the wrong speed when driving at extremely low speeds, but this is not a malfunction. Correct speed display will function at speed above 10km/h. Please be aware of this beforehand.
