**CHANGE PEDAL ANGLE ADJUSTABLE FOR BETTER CONTROL!
XSR125 PULL ROD KIT!**

By replacing it with the stock shift rod, you can change the length of the shift rod and adjust the height of the shift pedal. By using pillow ball joints on both ends, rattling is reduced, the shift feeling is improved, and the quality around the shift pedal is also upgraded. By adjusting the angle of the change pedal to suit the riding position, it can reduce the strain on the ankles and make riding more comfortable.

BODY REPAIRED Tune-up item

SHIFT ROD KIT

APPLICATION

- XSR125 (RE46J) BVF1

STOCK PULL ROD

SHIFT ROD

- The pedal angle can be roughly adjusted on the shift arm side.
- Since it is fixed with cotter pins, it may feel some rattling.
- The pedal angle can be adjusted to fit perfectly from 217 to 236 mm.
- Pillow ball joints on both ends reduce rattling and improve

REMARKS

- PILLOW BALL : STEEL ○ PULL ROD : ALUMINUM SILVER ALUMITE FINISH
- SHIFT LINK ADJUSTABLE WIDTH : MAX19 mm (217 ~ 236mm)
- NOMAL PULL ROD : 230mm

* Determine the installation basic angle of the shift arm and then make fine adjustments with the shift link.
