

A SOFT NONWOVEN FABRIC COVER THAT PROTECTS THE VEHICLE BODY FROM DUST AND DIRT GENERATED DURING LONG-TERM INDOOR STORAGE OR OUTDOOR CONSTRUCTION WORK.

CHECK THE MOTORCYCLE EVEN WITH COVER ON!

BIKE COVER (NON WOVEN FABRICS)

Nonwoven fabric cover that protects the vehicle body from dust and dirt generated during long-term indoor storage or outdoor construction work.

When putting on the motorcycle cover (non-woven fabric), be careful not to catch it on protruding objects such as steps or levers and tear it, so be careful not to force it as stretching the rubber part and put it on while keeping an eye on the whole thing.

REMARKS

- UNIVERSAL
- POLYPROPYLENE
- SIZE : 210 × 65 × 130cm
- SOLD EACH

CODE	PRICE
882-901000 <small>CLICK</small>	¥ 1,300

- \* Not for outdoor use. Not waterproof as it is made from breathable-cloth.
- \* Do not use the cover when the engine or muffler is hot as this may cause the cover to deteriorate.

● It can cover a wide range of vehicle models from small to large, however vehicles equipped with fairings or pannier cases (see below) may stick out beyond the cover.
