### PACKING LIST

Fig	NAME	CODE	QTY
-	L-HANDLE SWITCH ASSY GROM (JC92)	756-1452101	x1
-	SCREW WASHER M5x16	756-9991001	x2
-	WINKER RELAY SQUARE SHAPE CL-F09	755-0400920	x1
-	POSITION MATCHING PATTERN (or this sheet) GROM/MONKEY125	-	x1

### HOW TO INSTALL

- 1) Remove the headlight unit, disconnect the left (L) handle switch coupler from the clutch switch terminal connection, and then remove the L handle switch.
- 2) Make a new hole for installation by using attached pattern paper. (Refer to the Fig 2 in right side.)
- 3) Wire Kitaco handle switch harness in the same way as genuine.
- 4) Install with attached bolt while the new hole and handle switch pin is matched. (Refer to the Fig 4 on right side.) ※ Must to use attached screw M5x16 because genuine one (M5x20) is different length and cause of break. ※ Tighten screw from upper side to lower side. (TORQUE: 2.5N · m)
- 5) Change genuine winker relay to attached one and convert harness.
- 6) Put back the removed parts. Make sure the switch works correctly.

### EACH PARTS NAME AND FUNCTION

1. HAZARD SWITCH  
(Push cancel type)  
※ When key is OFF, hazard lamp is not lit up
2. HEAD LIGHT  
(HI/LO changing switch.)

### IMPORTANT! Pattern paper print setting.

When printing pattern paper, please select "actual size" by print setting option. Except the "actual size", the pattern paper prints smaller than actual, it might make hole out of instruction and cannot fix it. Be careful of it. We are not responsible for processing error. please understand before printing.
